## 2024 CSA Vegetable Delivery

### Terms and Conditions:

1. I am supporting more than an individual farm. I am also creating an opportunity to create a local and sustainable food system.
2. I recognize that *Mosaic farms* will strive to provide great value, quality, and quantities of fruits and vegetables throughout the season and understand that farming can be unpredictable from season to season; the exact selections and quantities included in the weekly distribution will change as the season progresses.
3. I appreciate sharing in the rewards and risks of farming. I can celebrate an abundant harvest when conditions are favorable, and may have to come to terms with low crop yields and crop failures due to weather, weeds, pests etc  
We are sorry but tomatoes don't do well in hail.
4. Crates will be exchanged at every delivery, or a cooler can be left on the doorstep for my produce to be securely delivered to ensure quality of the products are maintained.
